Deserts

There are many reptiles that live in the desert. This snake has different shaped scales on his body. Look at the color chart and color the different shapes on this snake's skin.

Count how many of each shape you find and write the numbers above.

Which shape does the snake have most of? _____

Deserts

In the desert there are many mammals and many reptiles. Can you help sort these animals into their correct places. Cut out the animals on the side and glue them in the correct rows of mammals or reptiles. Mammals have hair or fur on their bodies and reptiles have scales on their body.

Mammals	Reptiles
