With the assistance of the Peter Emily International Veterinary Dental Foundation (PEIVDF) four animals will undergo dental procedures on Saturday, August 5, 2017 at Fresno Chaffee Zoo.

Fresno Chaffee Zoo's female African lion, Kiki will undergo a dental procedure to treat her fractured upper canines. The Zoo's male sloth bear, Sahassa, will receive a check up and cleaning.

Other than the Zoo's two patients, Project Survival's Cat Haven will also have procedures performed on two of their animals; Juanita, a 12-year-old female jaguar, and Morato, a 6-year-old male jaguar. Both jaguars will receive dental therapy.

***Please note that the times for these procedures are flexible and dependent on the animals. It is recommended that members of the media call before arrival. Limited amounts of media personnel will be permitted in the procedure room at a time and will be allowed in on a first come, first serve basis.**
