# Wetlands

Count and add the animals in this wetland habitat

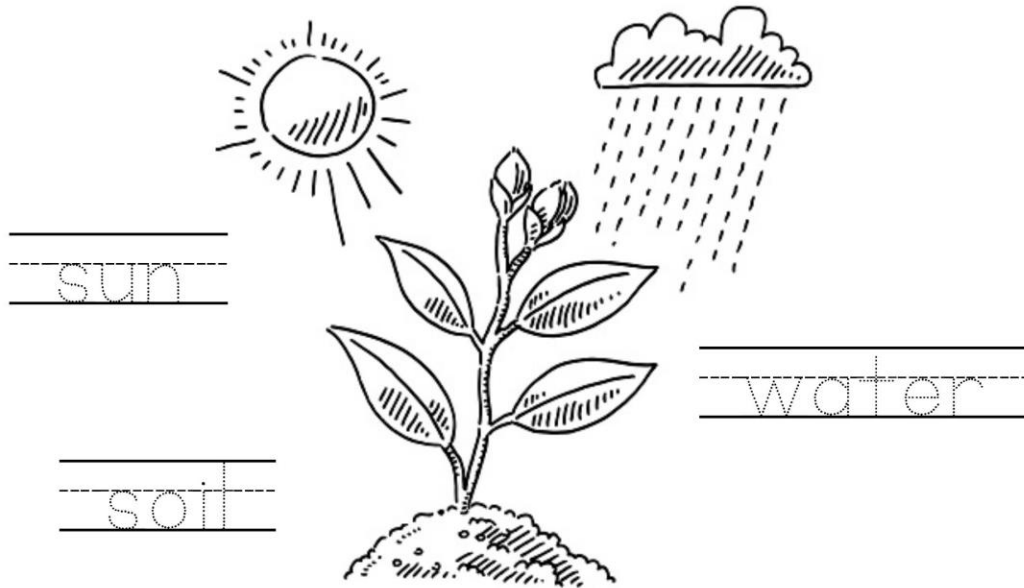

$$3 \text{ flamingos} + 2 \text{ beavers} = \underline{\hspace{2cm}}$$

Connect the dots 1-16 to see what wetlands animal climbed out of the pond

Plants need sun, water, and soil to help them grow. Trace the words and color the picture.

Animals also need things to help them live and grow. Trace the words food, water, and shelter and then color the picture. What animals do you see in this wetland's habitat?
